

**UPPER HILL
DISTRICT
ASSOCIATION**

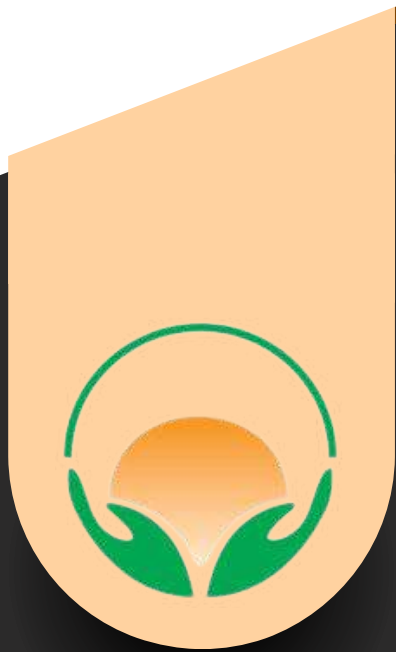

WELCOME TO UPPER HILL

Welcome to UPPER HILL, the home of lucrative businesses which has changed the skyline of Nairobi, thanks to the exquisite skyscrapers that have been constructed over the years.

The Upper Hill Business District was designated in the Country's Vision 2030 to become the Financial Hub within East and Central Africa and outside Johannesburg.

Upper Hill District has become the home of the country's top businesses in the last decade. This includes Banks, Insurance companies, Health institutions, the Hospitality industries, Mission Groups, Embassies, and Government institutions.

To achieve this the government has invested heavily in roads, utilities, security, and infrastructure. This has largely been articulated by the Upper Hill District Association (UHDA) which represents the businesses.

ABOUT UHDA

Upper Hill District Association (UHDA) is an Association for property owners, businesses, and organizations located in Upper Hill District area.

We were founded in 2001 and registered under the Societies Act in September 2003.

OUR VISION

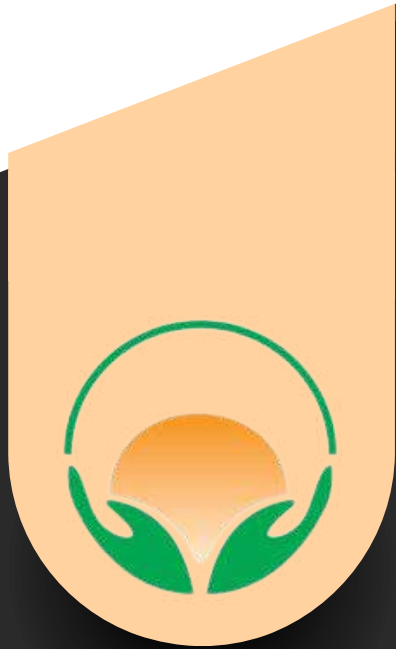

To see Upper Hill District become the financial hub of East and Central Africa.

OUR OBJECTIVE

To liaise with the National and County Governments on matters affecting Upper Hill District on behalf of our members, to improve the quality of life in the area.

AREAS OF FOCUS

As an Association, we focus on 3 main areas that are important in the growth, transformation, and maintaining the lucrative standards of the Upper Hill District area.

These three areas are handled by technical committees that act as liaison points with specific County and National Government bodies.

TECHNICAL COMMITTEES

Security Technical Committee

- Works closely with the Kenya Police, Administration Police, The NCC Askaris, and all security heads of all properties and businesses within the Upper Hill District Area to beef up security and keep the area secure.

Physical Planning Technical Committee

- It comprises Roads, Environment, and the general Physical Planning aspect of the area. This technical committee's mandate is to ensure the construction, growth, beauty, accessibility, cleanliness, green cover, and order in the area is maintained by the property owners, National and County Government.

Utilities Technical Committee

- Focuses on Power, Internet connectivity, Water, and sewerage issues in the area. This committee works closely with service providers in the above sectors to ensure the services offered in the area are of a good standard.

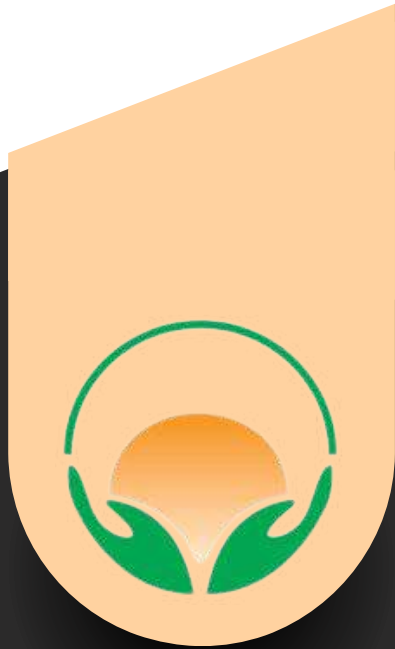

OUR VALUES

Credibility * Integrity * Effectiveness

OUR WORK

With the support of the neighboring organizations, the Nairobi County Government, KURA, and KFS, we have reclaimed illegal garbage areas, done clean-up activities, and led tree-planting projects.

We organize public forums with Government agencies and events that foster engagements and networking.
